LYVE™ Cloud
FOR STARTUPS

LYVE CLOUD FOR STARTUPS

Begin. Build. Boost.

Ignite your startup with up to 1 Petabyte of true Multi-Cloud storage free for a year

Just getting off the ground? Building out a product portfolio? Boosting your business to meet growing demands? No matter where you're at, Lyve Cloud for Startups is here to help you succeed by providing the tools, resources, and support you need to level up.

SIMPLE · TRUSTED · EFFICIENT

LYVE™ Cloud

- **Protect Your Data:** Multi-region availability and object immutability make Lyve Cloud an ideal repository for backup storage and disaster recovery that complements your existing multicloud strategy.

- **Access Your Data:** Crafted for 99.99% availability, optional multi-site replication and more than 11 9s of data durability.

- **Analyze Your Data:** Lyve Cloud provides elastic storage for data-intensive workloads so that you can support big data analytics and deep learning across edge, core, and cloud environments.
